## CBS Design Guide Released

Tampa, FL — Leader Tech announces the release of a new board-level shielding catalog and engineers' design guide. This EMI shielding brochure contains detailed information on standard, modified standard and custom CBS products. A quick-glance product comparison chart as well as cover retention data and shielding performance is published for each CBS series.

A complete section of the publication is dedicated to emerging EMI shielding design and manufacturing processes. The company's recently introduced Slot-Lok™ series allows engineers to develop near custom, 2-piece (fence & cover) shielding solutions without requiring costly investments in tooling.

The newly published CBS Product and Design Guide can be downloaded free of charge from the company's web site at [www.leadertechinc.com](http://www.leadertechinc.com).

## About Leader Tech

*Leader Tech is a world-leading innovator and manufacturer of EMI shielding products for circuit boards, electronic enclosures and interconnect cables. The company's core product offerings include standard and custom circuit board shields, beryllium copper fingerstock gaskets, conductive elastomers, advanced RF absorber materials and EMI/RFI ferrites. Leader Tech is a wholly owned subsidiary of HEICO Corporation, a successful and growing technology-driven aerospace, defense and electronics company. HEICO Corporation is a New York Stock Exchange listed company (NYSE: HEI and HELA) and has been ranked as one of the 200 "Best Small Companies" and 200 "Hot Shot Stocks" by Forbes. For more information, call (813) 855-6921 or visit us on the Web at <http://www.leadertechinc.com>.*
