EMI Enclosure Shielding Product Guide

Leader Tech announces the new release of a comprehensive Enclosure Shielding Products and Engineering Design Guide. Immediate downloads of the catalog are available from the company's home page- www.leadertechinc.com.

The brochure outlines detailed information concerning EMI shielding applications, product specifications and performance data.

This easy-to-use product reference guide features sections on fingerstock gaskets, conductive elastomers, oriented wire, knitted wire, elastomer core wire, honeycomb panels, metalized fabric gaskets, as well as shielding fabrics and tapes.

About Leader Tech

Leader Tech is a world-leading innovator and manufacturer of EMI shielding products for circuit boards, electronic enclosures and interconnect cables. The company's core product offerings include standard and custom circuit board shields, beryllium copper fingerstock gaskets and custom stampings, conductive elastomers, advanced RF absorber materials and EMI/RFI ferrites. Leader Tech is a wholly owned subsidiary of HEICO Corporation, a successful and growing technology-driven aerospace, defense and electronics company. HEICO Corporation is a New York Stock Exchange listed company (NYSE: HEI and HEI.A) and has been ranked as one of the 200 "Best Small Companies" and 200 "Hot Shot Stocks" by Forbes.
