A Milestone Reached... A Legacy Continues!

Tampa, FL — FerriShield recently celebrated its 25th year in business and its 2nd Anniversary as a distinguished Leader Tech product offering. “The addition of FerriShield Ferrites to the Company’s extensive line of board and enclosure shielding products has been an overwhelming success”, states Tim Black Director of Sales and Marketing.

In its founding years, Ferrishield pioneered the concept of “clamp-on” ferrites to help eliminate unwanted RF interference in terminated cables. Today, Leader Tech stays true to the FerriShield philosophy of maintaining the world’s largest in-stock selection of bisected and solid core ferrites.

The FerriShield product line has enhanced Leader Tech’s ability to provide customers with integrated EMI shielding solutions for the vast majority of RF interference problems.

About Leader Tech

Leader Tech is a world-leading innovator and manufacturer of EMI shielding products for circuit boards, electronic enclosures and interconnect cables. The company's core product offerings include standard and custom circuit board shields, beryllium copper fingerstock gaskets, conductive elastomers, advanced RF absorber materials and EMI/RFI ferrites. Leader Tech is a wholly owned subsidiary of HEICO Corporation, a successful and growing technology-driven aerospace, defense and electronics company. HEICO Corporation is a New York Stock Exchange listed company (NYSE: HEI and HELA) and has been ranked as one of the 200 "Best Small Companies" and 200 "Hot Shot Stocks" by Forbes.
