Expanded Enclosure Shielding Catalog

Tampa, FL —Monday, October 31, 2011—
Leader Tech announces the release of its newly expanded EMI Enclosure Shielding Solutions product catalog and engineer's design guide.

In addition to a large selection of beryllium copper fingerstock gaskets, the brochure features an expanded line of conductive elastomers, new fabric shielding gasket profiles and 145 variations of oriented and knitted wire gaskets. With the support of regional sales engineers and the resources of the company's Global EMI Shielding Technology Center in Tampa, Florida, customers can easily create custom die-cut patterns and gasket profiles for their unique shielding applications.

The expanded product catalog also offers detailed information concerning EMI shielding applications, product specifications and performance data. Leader Tech's Enclosure Shielding Solutions catalog is available for immediate download from the company's website at www.leadertechinc.com.

About Leader Tech

Leader Tech is a world-leading innovator and manufacturer of EMI shielding products for circuit boards, electronic enclosures and interconnect cables. The company's core product offerings include standard and custom circuit board shields, beryllium copper fingerstock gaskets, conductive elastomers, advanced RF absorber materials and EMI/RFI ferrites. Leader Tech is a wholly owned subsidiary of HEICO Corporation, a successful and growing technology-driven aerospace, defense and electronics company. HEICO Corporation is a New York Stock Exchange listed company (NYSE: HEI and HEI.A) and has been ranked as one of the 200 "Best Small Companies" and 200 "Hot Shot Stocks" by Forbes.
