FSG Product Line Launched

Tampa, FL —Thursday, November 04, 2010—Today, Leader Tech announces the launch of a new Fabric Shielding Gasket product line. This introduction is marked by the publication of a dedicated FSG catalog that provides performance and application data on over 125 gasket profiles and sizes.

The light-weight, easy-to-install gaskets are ideal for most electronic enclosure shielding applications. The company's FSG products are manufactured with a resilient polyurethane foam core and a unique, highly conductive nickel/copper ripstop outer fabric. All FSG gaskets exhibit low compression characteristics and offer a shielding effectiveness up to 115 dB.

A digital copy of the Fabric Shielding Gasket catalog is available for immediate download from the company's web site at www.leadertechinc.com. Reservations are also being accepted for the print catalog which will be available on November 19, 2010.

About Leader Tech

Leader Tech is a world-leading innovator and manufacturer of EMI shielding products for circuit boards, electronic enclosures and interconnect cables. The company's core product offerings include standard and custom circuit board shields, beryllium copper fingerstock gaskets, conductive elastomers, advanced RF absorber materials and EMI/RFI ferrites. Leader Tech is a wholly owned subsidiary of HEICO Corporation, a successful and growing technology-driven aerospace, defense and electronics company. HEICO Corporation is a New York Stock Exchange listed company (NYSE: HEI and HEI.A) and has been ranked as one of the 200 "Best Small Companies" and 200 "Hot Shot Stocks" by Forbes.
